Kram Innovative Machines

Good afternoon, dear partners, we are a group of specialists from NKMZ (Novokramatorsk Machine Building Plant) Ukraine, in the direction of rolling, metallurgical, as well as various non-standard equipment.

We offer you our services as ENGINEERING (design, modernization and execution of technical documentation).

Our main product range is the design of cold and hot mill coilers, coiler drums and spare parts, straightening machines, pre-coiler pull rollers, roll removal trolleys, roller tables and other equipment.

We also design related equipment for coilers and various non-standard equipment: 20-roll mills, section mills for rolling wire and rods (bar coiler, new development and new approach), roller hardening machines, various kinds of test benches for equipment, benches for reloading of rolls of a rolling mill, stands for removing pillows from rolling rolls and other non-standard equipment.

We carry out engineering according to the documentation or on the basis of your terms of reference.

Our team of specialists has extensive experience in the design and commissioning of equipment, a flexible approach to each customer.

A short list of projects implemented in 2021:

Stand for revision and adjustment of hydraulic winders for MMK mill
2500g.p.

Winder for wire winding, as well as the entire mill line for RUSPOLYMET
KULEBAKI

Winder pneumatic for MMK them. Ilyich (Ukraine), also ARCELOR
MITTAL Kazakhstan

Winder drums both according to the customer's specifications and
according to its old documentation with possible revision, modernization: NLMK
Lipetsk, Severstal, MMK, Zaporizhstal (Kazakhstan Temirtau, Romania, Poland,
Czech Republic, etc.), Turkey ANADOLUMET.

Spare parts for winder drums: France, Czech Republic, Romania, etc.

Descaler for ARCELOR MITTAL Romania

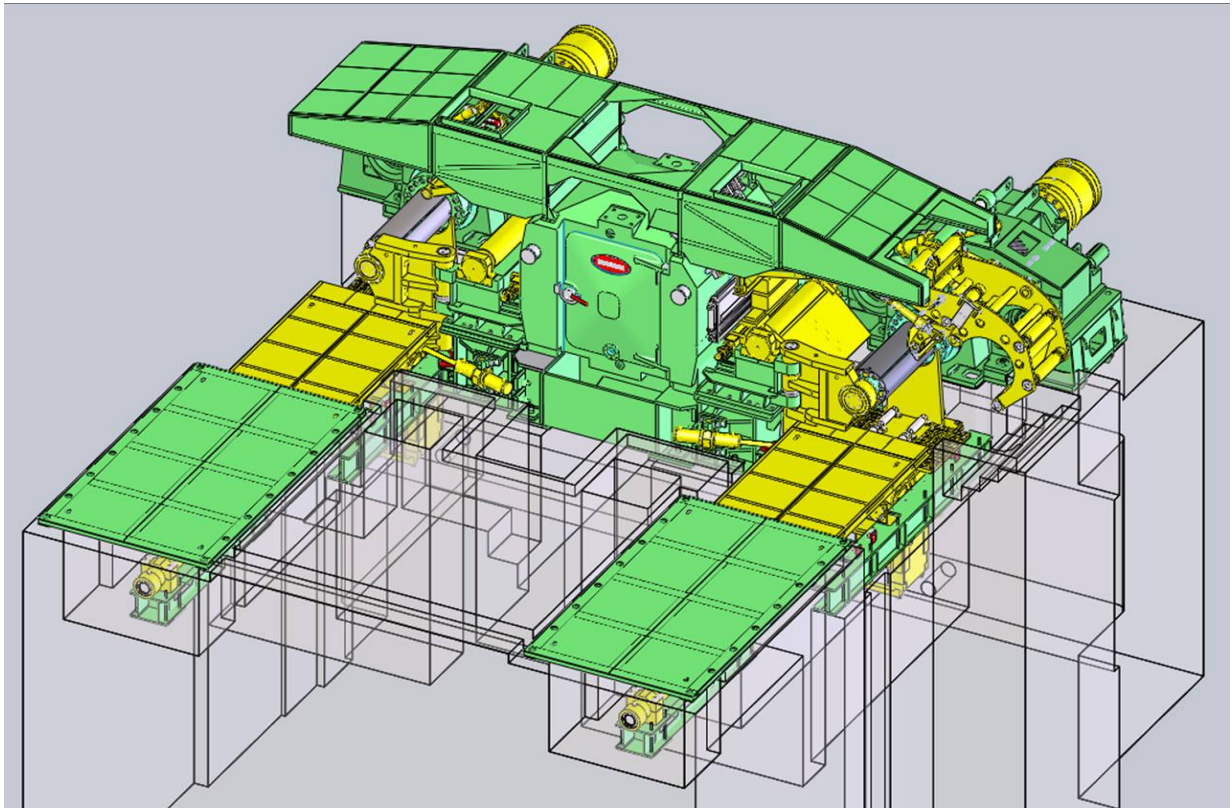

Pulleys and trolleys for ARCELOR MITTAL

There are also a number of patents for our equipment.

KIM - KramInnovativeMachines

- development of turnkey technical documentation;
- engineering without borders
- individual approach to every customer.

TWENTY ROLL ROLLING MILL FOR TITANIUM STRIP ROLLING

COLD ROLLING DRUM NLMK

HOT MILL COILER MMK 2022

ROLL REMOVER TROLLEY

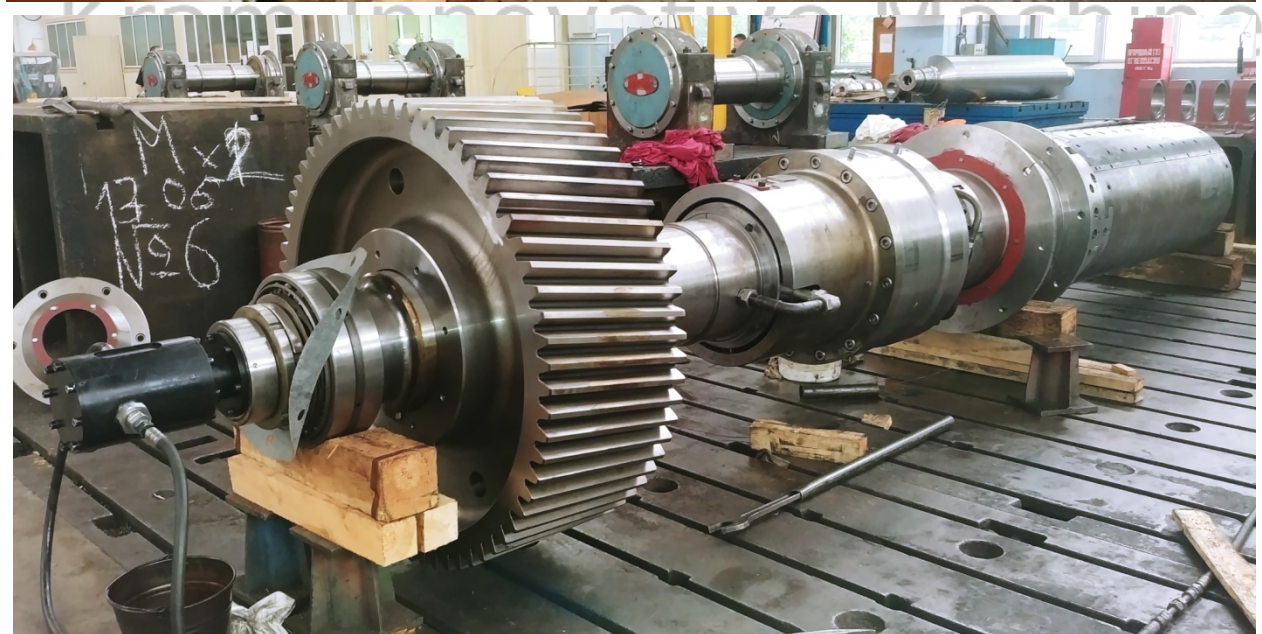

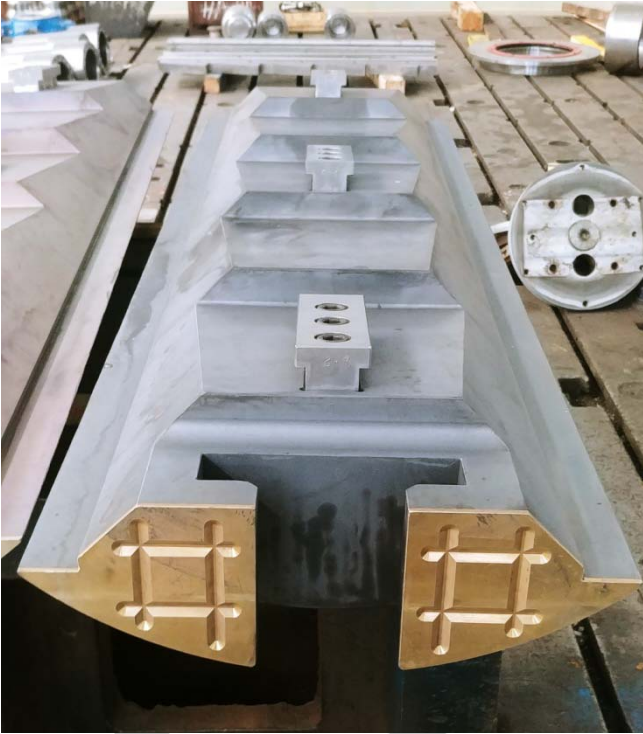

WINDER FLUSHER

WINDER DRUM WITH HYDRAULIC STRIP CLAMP

WINDER DRUM WITH MECHANICAL STRIP CLAMP

BALL ROLLING EQUIPMENT

ROLLER HARDENING MACHINE

WIRE WINDER

We hope for your interest in our proposal for further cooperation in the field of engineering.
